0.3. When the structure or the corporate governance practices deviate from the CMVM's Recommendations or from other Corporate Governance Codes that the company is subject to or had voluntarily applied to, the company shall explain which parts of each code have not been complied with and the reasons therefore.

1.4.1 Companies shall not set a constitutive or deliberating quorum that outnumbers the one which is prescribed by Law.

The company's statutes envisage in their article 23 that the General Assembly can meet and deliberate on first meeting as long as shareholders holding shares comprising more than fifty percent of the share capital are present or represented. Given that art. 383 section 1 of the CSC (Companies' Code) allows the contract to set a constitutive quorum, the company legitimately uses that faculty. But as the said legal provision is less restrictive than the statutes, this recommendation is not complied with.

1.1.2.2 Non-executive members must include an adequate number of independent members. The size of the company and its shareholder structure must be taken into account when devising this number and may never be less than a fourth of the total number of the Board of Directors.

The Company's management body is composed of three directors and includes one member, Prof. Juan Carlos Vázquez-Dodero, who is a non-executive member. The said member is a board of director's member of affiliated companies, in which he does not exercise executive functions. He does not carry out any activities or business with the company, as per the provisions of articles 397 and 398 of the CSC. However, he does not fulfill the independence

requirements of art. 414 section 5 of the CSC, although he is a non executive board of director's member of affiliated companies, complying in this sense, the European Commission Recommendation of 15th February 2005 on this matter, he does not comply with the more restrictive understanding of CMVM. Regarding verification of the incompatibility requirements, the same non-executive director does comply with such rules, except for paragraph c) of section 1 of art. 414 – A of the CSC.

In conclusion, and although the Company's administrative structure is not governed by an audit committee included in its Board of Directors (hence the legal requirement contained in article 423-B of the CSC, namely its sections 4 and 5, is not imposed on the latter), according to CMVM understanding the requirement of point II.1.2.2 of the Corporate Governance Code is not fulfilled.

II.1.4.1 The company shall adopt a policy whereby irregularities occurring within the company are reported. Such reports should contain the following information: i) the means through which such irregularities may be reported internally, including the persons that are entitled to receive the reports; ii) how the report is to be handled, including confidential treatment, should it be required by the reporter.

The company has not established a formal policy to receive communications and complaints over irregularities that have been detected in the company, although the Statutory Audit Committee's Regulation grants a communication channel, directed to this organ, of such complaints.

II.1.4.2 The general guidelines on this policy should be disclosed in the corporate governance report.

This policy has been neither formalized nor systemized in formal communication channels, as indicated above.

II.1.5.1 The remuneration of the members of the Board of Directors shall be structured so as to align their interests with the interests of the company. Thus:

i) The remuneration of Directors carrying out executive duties should be based on performance and a performance assessment shall be carried out periodically by the competent body or committee; ii) the level of remuneration shall be consistent with the maximization of the long term performance of the company, and shall be dependent on sustainability of the levels of the adopted performance; iii) when the remuneration of non-executive members of the Board of Directors is not legally imposed, an exclusively fixed amount should be set.

This Recommendation is not complied with. The remuneration of the corporate bodies' members is set by a Salary Committee elected in General Meeting. The directors do not obtain any remuneration from the company or from the Group companies. The shareholding company ATPS-Sociedade Gestora de Participações Sociais, SA., provided management services to the Group, in 2009, for an amount of €737.594,00.

II.1.5.3 At least one of the Remuneration Committee's representatives shall be present at the Annual Shareholders' General Meeting.

The company will comply with this Recommendation at the Annual GMeeting in 2010.

II.1.5.5 The remuneration of the members of the Management and Supervisory Boards shall be individually and annually disclosed and, information on fixed and variable remuneration must be

discriminated as well as any other remuneration received from other companies within the group of companies or companies controlled by shareholders of qualifying holdings.

Not complied with for the executive members of the company's Board of Directors. The Shareholder's Company ATPS-SGPS, SA, has rendered management services to the Group, having received from the affiliated company Ibersol, Restauração, SA., for the rendered services, the amount of 737.594,00€ in 2009. Among the ATPS- Sociedade Gestora de Participações Sociais, SA. obligations and under the contract terms with Ibersol, Restauração, SA. it is included the obligation of assuring that the Company's Board of Director's members , António Carlos Vaz Pinto de Sousa e António Alberto Guerra Leal Teixeira perform their functions without any further costs for the company. The Company does not allow, directly, any payment to it's executive board of Director's members. Being ATPS – Sociedade Gestora de Participações Sociais, SA. held, in equal shares, by the board of directors members António Carlos Vaz Pinto de Sousa e António Alberto Guerra Leal Teixeira, from the mentioned amount of 737.594,00€ in 2009, it will correspond to each one of those board of director's members the amount of 368.797,00€.

The non executive member of the board obtained an annual remuneration of 6.000€. In 2009 and globally, the remunerations of the Statutory Audit Committee members were as follows : President – 8.786€, Vice-President – 8.786€, Vogal – 8.786€, Chartered Accounting Firm – 37.510€.

II.2.5 The management body should promote member replacement for financial matters at least after every two mandates.

This recommendation has not been complied with, so it has been understood by the company that such obligation should only be applicable in future terms, meaning the end of two mandates counting from the ruling of the Recommendation II.2.5 of the Corporate Governance Code (this code was effective from September 2007).

II.3.2 The Chairman of the Executive Committee shall send the notices of meeting and the respective minutes of the meetings to the Chairman of the Board of Directors and, when applicable, to the Chairman of the Supervisory Board or the Auditing Committee.

This recommendation has not been complied with. The Board of Directors has a two-member Executive Committee that meets weekly and considers diverse matters associated to the company's management, besides holding regular meetings with the non-executive member, circulating detailed information about relevant Company aspects between the executive members and the non-executive member of the Board, being as well provided, regularly, relevant information to the Statutory Audit Committee Chairwoman.

II.5.1 Unless the company is of a reduced size and depending on the adopted model, the Board of Directors and the General and Supervisory Committees shall set up the necessary Committees in order to: i) ensure that a competent and independent evaluation of the Executive Directors' performance is carried out, as well as of its own overall performance and further yet, the performance of all existing Committees; ii) study the adopted governance system and verify its efficiency and propose to the competent bodies measures to be carried out with a view to its improvement.

The company does not have specialized committees, unless the Remuneration Committee.

0.4. The corporate body or the committee shall at all times, assess the independency of each of its members and shall inform the shareholders, via a statement included in the corporate governance report, on its assessment both at the time of the appointment and following the loss of independency.

No circumstance causing a loss of independence by the independent non-executive member of the Board of Directors, the Statutory Audit Committee members, and the members of the General Assembly Board were verified to occur during the course of 2009.

Franchise Contracts exist in the Company concerning concession of the operation, under licence, of international foodservice brands in which Ibersol, SGPS, SA., figures as an accessory party guaranteeing the respective compliance, and in which the companies it has a stake in are the main parties of those same contracts. They set some limits on the change of control in holdings of Ibersol, SGPS, SA., as well as in companies with a dominant position in Ibersol, SGPS, SA. Evaluation of the Management Body regarding the adopted governance model

The Board of Directors declares that the adopted Corporate Governance model has shown itself to be adequate for the good internal and external functioning of the Company. The Board of Directors has a two-member Executive Committee that meets weekly and considers diverse matters associated to the company's management, besides holding regular meetings with the non-executive member, circulating detailed information about relevant Company aspects between the executive members and the non-executive member of the Board.

The Annual Management Report describes the activity carried out by the non-executive member.

The Board of Directors does not have special support committees.

No type of constraint or objection regarding how the Corporate Governance model works has been indicated on behalf of any governing body, given the rigour and frequency the information is provided to.

Minutes are drawn up for the Executive Committee and the Remuneration Committee.

II.4. Description of the internal control and risk management systems within the company, namely as regards the financial information disclosure system.

Risk management is a component of the company's culture and is present in all processes; it is the responsibility of all managers and collaborators at the different levels of the organization.

Risk management is undertaken with the aim of creating value through the management and control of uncertainties and threats that can affect Group companies from a standpoint of operational continuity, with a view to taking advantage of business opportunities.

In the context of strategic planning, risks to the portfolio of existing businesses are identified and evaluated; new businesses and more relevant projects are also developed and strategies to manage those risks determined.

At operational level, management risks are identified and evaluated regarding the objectives of each business and actions to manage those risks are planned; they are included and monitored in the scope of the business plans and the functional units.

Regarding risk to the security of tangible assets and persons, politics and standards are defined and self-control of compliance with those is undertaken; external audits are carried out on all units and actions are implemented to prevent and identify, correctly, the risks.

In order to guarantee conformity of the established procedures, the group's main internal control systems are periodically evaluated.

Internal control and accompaniment of the internal control systems is carried out by the Executive Committee. For specific business aspects there are risk areas whose management has been assigned to functional departments, of which the following stand out:

Food Quality and Safety

In the foodservice business the risk associated to hygiene and food safety is of major importance.

Management of this risk area is coordinated by the Quality Division. Its main concerns imply responsible and proactive action, following the principles of prevention, training, monitoring of

indicators and the search for continual improvement in order to minimize food-related risks that impact consumers' health.

This risk area's main management aspects:

- Qualification and Selection of Suppliers and Products in the food quality/safety area and the Periodic Control Programme for Suppliers/Products and Services;
- guaranteed effectiveness of the implemented Tracing System;
- control of the units' Productive Process by means of HACCP Systems;
- System to Develop Food Safety Skills;
- Maintenance and Monitoring of measurement devices;
- Food Crisis Management System, which allows existing food warning systems to be monitored at all times and ensures immediate action when necessary;
- System for Continual Improvement, supported among other instruments by the External Audits Programme in all Group units; programme for micro-biological analyses of end products carried out per sample by the accredited external entity; Complaint Handling System, Mystery Customer Programme and Internal Audits Programme with respect to the indicators associated to Food Safety;
- Live Well Programme, by which the Group informs consumers about its Food Safety system and the opportunity to have healthy food habits, providing them transparently with the information needed to make the most correct choices.

Workplace Safety and Hygiene

Coordination of this risk area's management process is the responsibility of the Human Resources Division, which coordinates the Training Plans and monitors application of the standards and procedures set out in the SHT Manual in effect at Ibersol.

Financial

Risk management in the financial area is carried out by the Financial Division and centres on monitoring the volatility of financial markets, especially interest rates. The main sources of risk exposure are:

- a) Interest rate risk

As the group does not have remunerated assets with significant interests, the profit and cash flows from financing activity are largely independent of any changes in the market interest rate.

The Group's interest rate risk comes from liabilities, specifically long term loans. Loans issued with variable rates expose the Group to cash flow risks linked to interest rates. Loans issued with fixed rates expose the Group to risk from the fair value associated to the interest rate. With the current interest rate levels, the group's policy, for financing with longer maturity, is to ensure the total or partial fixing of interest rates.

In recent years only a small part of the Group's financing has considered the possibility of risk coverage by interest rate variation. It has a swap operation involving 9 million euros in Spain and the medium and long term loan in which it set the interest rate expired in September 2008. The remaining remunerated debt consequently incurs interest at a variable rate.

b) Credit risk

The Group's main activity is carried out with sales paid in cash or debit/credit card; the Group therefore has no relevant credit risk concentrations. The Group has policies to ensure that sales on credit are made to customers with a suitable credit history. The Group has policies that limit the amount of credit to which clients can have access.

c) Liquidity risk

The management of treasury needs is done based on annual planning revised quarterly and adjusted daily. Per the underlying business dynamics, the Group's Treasury has been flexibly managing commercial paper and the negotiation of credit lines available at all times.

d) Capital risk

The company seeks to maintain a level of equity capital that suits the characteristics of its main business (cash sales and supplier credit) and to ensure continued expansion. The capital structure's equilibrium is monitored based on the financial leverage ratio (defined as: net remunerated debt / (net remunerated debt+own capital)) with the goal of situating it in the 35%-70% bracket. In 2009 we have registered a 32% ratio.

Environmental

Management of this risk area is coordinated by the Quality Division. Its main focus is on implementing the policy deriving from the Ibersol Sustainability Principles, so that the processes and procedures across all hierarchic levels can be applied to the environment.

The procedures dealt with in the Ibersol Standards Manual concerning this area mainly focus on rational electricity usage and recycling used oils.

Contingency

The unpredictable evolution of the financial markets may lead to increased financing costs and credit access problems, although we believe the company will be able to overcome such difficulties.

On the other hand, operations in the foodservice area can be affected by eventual epidemics or raw material market distortions or eventual changes in consumption standards, which may significantly impact the financial statements.

II.5. Powers of the Management Body, particularly regarding resolutions on capital increase.

The management body's powers are those attributed by the Commercial Companies Code [CSC – *Código das Sociedades Comerciais*] and those contained in articles 4^o section 2, 8, 11 and 12 of the Company Association Articles.

Concerning resolutions over increasing capital, the company association articles in its art. 4^o section 2 authorizes the Board of Directors to consider capital increases up to the limit of one hundred million euros.

II.6. Indication on the existence of regulations on the functioning of the corporate bodies or any internally defined rules on incompatibility and the maximum number of positions that a member is entitled to hold and the place where these rules may be consulted at.

The company has Board of Directors and Statutory Audit Committee regulations about its functioning rules, published in the company's website.

A list of incompatibilities has not been determined, nor has the maximum number of positions directors may accumulate in management bodies of other companies, in so far as the company's directors, except for the non-executive director, only exercise executive functions in the companies comprising the Group.

The non-executive member attended seven board of directors meetings, and he has been timely informed of the respective agenda. He participates, with regularity, in the executive committee reunions, especially those ones over discussion of the strategic and planning of the corporate business. He provides special support to the Management Control function and to the development of personnel in that Department. Permanently, he receives from the management control department, the information that suites him to follow the current activity.

II.7. Rules applicable to the appointment and replacement of members of the Management and Supervisory Body.

The applicable rules for designating and replacing members of the management and supervisory body are those envisaged in the Commercial Companies Code; there are no specific statutory provisions on this subject in the Company.

II.8. Number of meetings held by the Management and Supervisory Body and other created Committees that are responsible for managing and supervising during the financial year in question.

Also in accordance with the Company articles of association, the Board of Directors normally meets once each quarter and, besides that, any time the Chairman or two of its members summon it; the resulting resolutions should be contained in the respective minutes. The Board of Directors can only deliberate if a majority of its members are present or represented and resolutions will be decided by majority of issued votes. The Board of Directors met fourteen times and the Statutory Audit Committee five times over the course of financial year 2009. The Executive Committee regular meets once a week, and has met forty times in the year 2009.

II.9. Identification of the members of the Board of Directors and other Committees created within the company and their distinction between executive and non-executive Members and from among the latter, which members comply with the incompatibility rules provided for in article 414-A/1, except for item b/ and the independence criterion mentioned in article 414/5, both from the Commercial Companies Code.

The Company's management body is composed of three directors and includes one member, Juan Carlos Vázquez-Dodero, who is a non-executive member not associated to specific interest groups from either the Company or its reference shareholders, nor does he have relevant interests likely to collide or interfere with the free exercise of his mandate, furthermore noting that no internal control committee has been constituted. The said member is a board of director of affiliated companies, in which he does not exercise executive functions. He does not carry out any activities or business with the company, as per the provisions of articles 397^º and 398^º of the CSC, fulfilling the other independence requirements of art. 414^º section 5 of the CSC. Regarding verification of the incompatibility requirements, the same non-executive director does comply with such rules, except for paragraph c) of section 1 of art. 414^º-A of the CSC.

In conclusion, and although the Company's Board of Directors structure is not governed by an audit committee included in its Board of Directors (hence the legal requirement contained in article 423-B of the CSC, namely its sections 4 and 5, is not imposed on the latter), according to CMVM understanding the requirement of point II.1.2.2 of the Corporate Governance Code is not fulfilled.

Regarding the mechanisms for coordinating the work of the non-executive member of the Board of Directors with the Chairman of the Board of Directors with executive functions, same comprise permanent and direct means of information; there are no constraints whatsoever that might obstruct independent and informed decisions.

II.10. Professional qualifications of the members of the Board of Directors, the professional activities carried out by them at least during the last five years, the number
