## PORTUGAL

The Group is a leading player in Portuguese airports, having obtained the concession for four new restaurants at the Madeira airport.

The Group is a leading player in Portuguese airports, having obtained the concession for four new restaurants at the Madeira airport. The new venues are located on the Third floor (on the "Ground" side, open to the public and on the restricted "Air" zone) and comprise:

- Clocks, a cafeteria with a wide-ranging menu which includes fresh salads, pasta dishes, hamburgers, prego meat sandwiches and fruit juices;
- Cockpit restaurant bar with table service that offers a variety of tapas, mini-sandwiches, hot meals, and wine by the glass;
- Go To café, a cafeteria with fast service for those who do not have a minute to spare;
- Pizza Hut, renowned international anchor brand, with quick-serve pizzas.

This represents one more Ibersol Group investment in Funchal, where we have been present since 2000 and already have seven restaurants from the international brands, Burger King, KFC and Pans & Company.

These units at the Madeira airport are in addition to the 11 points of sale at the Lisbon and João Paulo II (Ponta Delgada) airports. The year ended with a total of 122 employees.
