

The group's head office – which also hosts the largest operating company, is in Portugal. Its business activity is in the restaurant segment.

The Group operates in three main geographic areas (Portugal, Spain and Angola) managed on a national level. However in this financial report we consider only two segments, given the small size of investment in Angola, in the year ended December 31, 2013.

Sales are broken down based on the country where the client is located.

The segments' assets include, in particular, tangible fixed assets, intangible assets, stocks, accounts receivable and cash and cash equivalents. This category excludes deferred taxes, financial investments and derivatives held for negotiation or hedge.

The segments' liabilities are operating liabilities. Taxes, loans and related hedging derivatives are excluded.

Investments include additions to tangible fixed assets (Note 8) and intangible assets (Note 9).

Investments are distributed based on the location where the respective assets are located.

2.4 CURRENCY EXCHANGE RATE

(a) Working currency and financial statement currency

The Financial Statements of each group entity are prepared using the currency of the region in which the entity operates ("the working currency"). The consolidated financial statements are presented in euros since this is the working currency which the group uses in the financial statements.

(b) Transactions and balances

Transactions in currencies other than the euro are converted into the working currency using the exchange rates on the transaction date. Exchange rate gains or losses from liquidating transactions and from the conversion rate on the consolidated statement of financial position date of monetary assets and liabilities in a currency other than the euro are recognised in the Profit and Loss Account, except when they are qualified as cash flow hedging or as net investment hedging, in which case they are recorded in equity.

(c) Financial statements

Financial statements assets and liabilities of foreign entities are converted to euro using the exchange rates at the balance sheet date, profit and loss as well as the cash flows statements are translated into euro using the average exchange rate recorded during the period. The resulting exchange difference is recorded in equity under the heading of exchange rate differences.

"Goodwill" and fair value adjustments arising from the acquisition of foreign entities are treated as assets and liabilities of that entity and translated into euro according to the exchange rate at the balance sheet date.
